>> VISION GENERAL

Los NIH forman parte del Departamento de Salud y Servicios Humanos de los Estados Unidos.

Los NIH responden a la legislación establecida por el Congreso que ajusta los programas de los NIH para satisfacer las necesidades de investigación.

Misión NIH

Buscar conocimientos fundamentales sobre la naturaleza y el comportamiento de los sistemas vivos y la aplicación de ese conocimiento para mejorar la salud, prolongar la vida y reducir las enfermedades y la discapacidad.

Objetivos NIH

- ✓ Fomentar **descubrimientos creativos fundamentales**, estrategias de investigación **innovadoras** y sus **aplicaciones** como base para, en última instancia, proteger y mejorar la salud;
- ✓ Desarrollar, mantener y renovar los **recursos científicos, humanos y físicos**, que garanticen la capacidad de la nación para prevenir la enfermedad;
- ✓ Ampliar la base de conocimientos en ciencias médicas y otras ciencias asociadas a fin de mejorar el **bienestar económico** de la nación y garantizar un **retorno alto** continuo de las inversiones públicas en investigación; y
- ✓ Ejemplificar y promover el nivel más alto de **integridad científica, responsabilidad pública y responsabilidad social** en la conducción de la ciencia.

Prioridades NIH

- ✓ **Causas, diagnóstico, prevención y cura** de las enfermedades humanas;
- ✓ Proceso del **crecimiento y desarrollo** del ser humano;
- ✓ Efectos biológicos de los **contaminantes ambientales**;
- ✓ Comprensión de los **trastornos físicos, adictivos y mentales**; y
- ✓ Recolectar, divulgar y compartir **información sobre medicina y salud**, incluido el desarrollo y apoyo de bibliotecas médicas y la capacitación de bibliotecólogos médicos y otros especialistas en información sobre salud.

>> TIPOS DE INSTITUTOS

List of Institutes and Centers

NIH Institutes

National Cancer Institute (NCI) — Est. 1937

NCI leads a national effort to eliminate the suffering and death due to cancer. Through basic and clinical biomedical research and training, NCI conducts and supports research that will lead to a future in which we can prevent cancer before it starts, identify cancers that do develop at the earliest stage, eliminate cancers through innovative treatment interventions, and biologically control those cancers that we cannot eliminate so they become manageable, chronic diseases.

National Eye Institute (NEI) — Est. 1968

The National Eye Institute's mission is to conduct and support research, training, health information dissemination, and other programs with respect to blinding eye diseases, visual disorders, mechanisms of visual function, preservation of sight, and the special health problems and requirements of the blind.

EL NIH está compuesto por 27 institutos y centros, cada uno con una agenda de investigación específica, que a menudo se centra en enfermedades concretas

<https://www.nih.gov/institutes-nih/list-institutes-centers>

Institutos NIH

NCI	Basic and clinical biomedical research and training in cancer .
NEI	Research, training, health information dissemination, to blinding eye diseases, visual disorders, mechanisms of visual function, preservation of sight .
NHLBI	Research, training, and education program to promote the prevention and treatment of heart, lung, and blood diseases
NHGRI	Expanding understanding of human biology and improving human health.
NIA	Research on the biomedical, social, and behavioral aspects of the aging process ; the prevention of age-related diseases and disabilities
NIAAA	Improving the treatment and prevention of alcoholism and alcohol-related problems.
NIAID	Understand, treat, and ultimately prevent the myriad infectious, immunologic, and allergic diseases
NIAMS	Causes, treatment, and prevention of arthritis and musculoskeletal and skin diseases .

Institutos NIH

NIBIB	Development and accelerating the application of biomedical technologies , and physical and engineering sciences with the life sciences to advance basic research and medical care.
NICHD	Research on fertility, pregnancy, growth, development, and medical rehabilitation
NIDCD	Biomedical research and research training on normal mechanisms as well as diseases of hearing, balance, smell, taste, voice, speech, and language
NIDCR	Understand, treat, and ultimately prevent the infectious and inherited craniofacial-oral-dental diseases .
NIDDK	Support medical research and research training and to disseminate science-based information on diabetes and other endocrine and metabolic diseases ; digestive diseases, nutritional disorders, and obesity; and kidney, urologic, and hematologic diseases.
NIDA	Advance science on the causes and consequences of drug use and addiction .
NIEHS	Discover how the environment affects people in order to promote healthier lives.

Institutos NIH

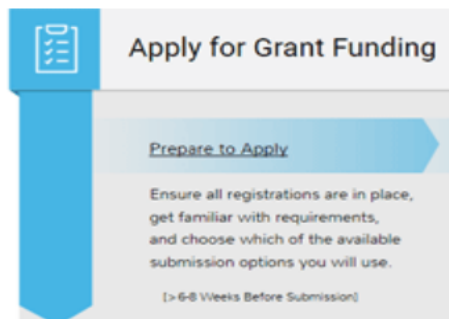

NIGMS	Understanding of biological processes and lays the foundation for advances in disease diagnosis, treatment and prevention.
NIMH	Understanding, treating, and preventing mental illnesses through basic research on the brain and behavior, and through clinical, epidemiological, and services research.
NIMHD	Detects and support research in minority health and health disparities.
NINDS	Basic, translational, and clinical research on the normal and diseased nervous system
NINR	Supports and conducts clinical and basic research and research training on health and illness across the lifespan to build the scientific foundation for clinical practice, prevent disease and disability, manage and eliminate symptoms caused by illness, and improve palliative and end-of-life care.
NLM	Collects, organizes, and makes available biomedical science information to scientists, health professionals, and the public.
FIC	Promotes and supports scientific research and training internationally to reduce disparities in global health.

>> CONVOCATORIAS

About Grants

Did you know that NIH is the largest public funder of biomedical research in the world, investing more than \$32 billion a year to enhance life, and reduce illness and disability? NIH funded research has led to breakthroughs and new treatments, helping people live longer, healthier lives, and building the research foundation that drives discovery. Read on for an orientation to NIH funding, grant programs, how the grants process works, and how to apply.

Grants Process Overview

Learn the steps needed for an application to proceed from planning and submission to award and close out. Drill down on each step for guidance that can deepen your understanding of the grants process and help you submit a grant application and manage your grant award.

https://grants.nih.gov/grants/about_grants.htm

https://grants.nih.gov/grants/grants_process.htm

- What Does NIH Look For?
- Who is Eligible
- Types of Grant Programs
- Types of Grant Applications

Modalidades de financiación

R01: NIH Research Project Grant Program (R01)

- Se utiliza para financiar un proyecto específico de investigación, es una **subvención**.
- **No hay límite** específico de presupuesto.
- Se requiere permiso si se va a solicitar \$500K o más (costes directos) en un año.
- En general es para proyectos entre **3- 5 años**.

Modalidades de financiación

R03: NIH Small Grant Program (R03)

- Subvención limitada a un **período corto de tiempo** para apoyar tipos de proyectos como: estudios piloto o de factibilidad, ejecución de datos preliminares, análisis secundarios de datos existentes, proyectos de investigación cortos, desarrollo de una nueva tecnología, etc.
- Hay límite de presupuesto hasta \$ 50.000 por año (**Máximo \$ 100.000**).
- Máxima duración del proyecto son **2 años**.
- No es renovable.

Modalidades de financiación

R21: NIH Exploratory/Developmental Research Grant Award (R21)

- La subvención R21 pretende fomentar **nuevos proyectos de investigación exploratorios y de desarrollo**.
- Máxima duración del proyecto son **2 años**.
- El presupuesto total no puede exceder los **\$275.000**.
- **No se requieren resultados preliminares** porque en esta convocatoria se asume un **cierto riesgo**, pero se valora muy positivamente que se presenten algunos, si los hay.

Modalidades de financiación

P01: Research Program Project Grant

- Apoyo a **proyectos de investigación integrados y multiproyectos que involucren a varios investigadores independientes** que comparten conocimientos y recursos comunes.
- Cada proyecto contribuye o está directamente relacionado con el tema común de investigación, formando así un sistema de actividades y proyectos de investigación dirigidos hacia un **objetivo del programa de investigación bien definido**.
- Hay un **límite de presupuesto**, a menos que se especifique en la oportunidad de financiamiento.

Búsqueda de convocatorias

The screenshot shows the NIH Grants & Funding website. At the top left is the NIH logo and the text "GRANTS & FUNDING NIH Central Resource for Grants and Funding Information". At the top right is a search bar labeled "Search this Site" and navigation links for "eRA", "NIH Staff", "Glossary", "FAQs", and "Help". The main navigation bar includes "HOME", "ABOUT GRANTS", "FUNDING" (highlighted), "POLICY & COMPLIANCE", "NEWS & EVENTS", and "ABOUT OER".

On the left side, there is a "FUNDING" sidebar menu with items: "Find Grant Funding: NIH Guide to Grants and Contracts", "Other Transactions", "Contracts", "Research Training and Career Development", "Loan Repayment Programs", "Extramural Diversity", and "NIH Funding Strategies".

The main content area features a "Funding" section with a sub-header "Funding" and a description: "NIH offers funding for many types of grants, contracts, and even programs that help repay loans for researchers. Learn about these programs, as well as about NIH's budget process, grant funding strategies, and policies, and more." Below this is an image of a magnifying glass over a "Search" button.

Next to the image is the heading "Find Grant Funding (NIH Guide to Grants and Contracts)" followed by a paragraph: "The NIH Guide for Grants and Contracts is our official publication for NIH grant policies, guidelines and funding opportunities. We publish daily and issue a table of contents weekly. Subscribe to receive updates today!". Below this is a link: "View all Parent Announcements (for unsolicited applications)".

At the bottom of this section is a search bar with the text "Search for funding opportunities and notices:" and the word "cancer" entered. A red circle highlights the search bar, and a red arrow points from it to the text "Búsqueda por temática específica".

On the right side, there is a "Report a Concern" button and a "RELATED RESOURCES" box containing links for "Types of Grant Programs", "Understand Funding Opportunities", and "Opportunities".

Participating Organization(s)	National Institutes of Health (NIH)
Components of Participating Organizations	National Cancer Institute (NCI)
Funding Opportunity Title	Modular R01s in Cancer Control and Population Sciences (R01 Clinical Trial Optional)
Activity Code	R01 Research Project Grant
Announcement Type	Reissue of PAR-21-190
Related Notices	See Notices of Special Interest associated with this funding opportunity <ul style="list-style-type: none"> • August 31, 2022- Implementation Changes for Genomic Data Sharing Plans Included with Applications Due on or after January 25, 2023. See Notice NOT-OD-22-198. • August 5, 2022- Implementation Details for the NIH Data Management and Sharing Policy. See Notice NOT-OD-22-189.
Funding Opportunity Number (FON)	PAR-24-122
Companion Funding Opportunity	None
Number of Applications	See Section III. 3. Additional Information on Eligibility .
Assistance Listing Number(s)	93.393, 93.399
Funding Opportunity Purpose	This notice of funding opportunity (NOFO) encourages applications for research in cancer control and population sciences. The overarching goal is to provide support to promote research efforts on novel scientific ideas that have the potential to substantially advance cancer research in statistical and analytic methods, epidemiology, cancer survivorship, cancer-related behaviors and behavioral interventions, health care delivery, digital health and data science, and implementation science.

1. Eligible Applicants

Eligible Organizations

Higher Education Institutions

- Public/State Controlled Institutions of Higher Education
- Private Institutions of Higher Education

The following types of Higher Education Institutions are always encouraged to apply for NIH support as Public or Private Institutions of Higher Education:

- Hispanic-serving Institutions
- Historically Black Colleges and Universities (HBCUs)
- Tribally Controlled Colleges and Universities (TCCUs)
- Alaska Native and Native Hawaiian Serving Institutions
- Asian American Native American Pacific Islander Serving Institutions (AANAPISIs)

Nonprofits Other Than Institutions of Higher Education

Foreign Institutions

Non-domestic (non-U.S.) Entities (Foreign Institutions) **are** eligible to apply.
 Non-domestic (non-U.S.) components of U.S. Organizations **are** eligible to apply.
 Foreign components, as defined in the *NIH Grants Policy Statement*, **are** allowed.

- City or Township Governments
- Special District Governments
- Indian/Native American Tribal Governments (Federally Recognized)
- Indian/Native American Tribal Governments (Other than Federally Recognized)
- Eligible Agencies of the Federal Government
- U.S. Territory or Possession

Other

- Independent School Districts
- Public Housing Authorities/Indian Housing Authorities
- Native American Tribal Organizations (other than Federally recognized tribal governments)
- Faith-based or Community-based Organizations
- Regional Organizations
- Non-domestic (non-U.S.) Entities (Foreign Institutions)

Foreign Institutions

Non-domestic (non-U.S.) Entities (Foreign Institutions) **are** eligible to apply.

Planificación y estrategia

Información para “Foreign Grants”

<https://grants.nih.gov/grants/foreign/index.htm>

- Foreign institutions must be able to provide research that does **not have comparable work being conducted in the U.S.** If it is, the grant will likely not be funded.
- If you are a highly qualified foreign investigator with **unique expertise or resources not available in the U.S.,** the likelihood of obtaining an NIH award increases.
- Foreign PD/PI's and/or research involving a foreign institution are **highly encouraged to contact an NIH program officer** as soon as possible in the planning and writing stages

Evaluación

- Whether the project presents special opportunities for furthering research programs through the use of **unusual talent, resources, populations, or environmental conditions in other countries that are not readily available in the United States** or that augment existing U.S. resources.
- Whether the proposed project **has specific relevance to the mission and objectives of the Institutes and Centers** and has the potential for significantly **advancing the health sciences in the United States**

Planificación y estrategia

Definición de la estrategia

- **NIH institute research priorities:** <https://grants.nih.gov/policy/nih-funding-strategies.htm>. Importante considerar que la propuesta ha de ajustarse al mission and research priorities de los institutos y centros NIH
- **RePORTER:** <https://reporter.nih.gov/>. Nos permite identificar tipos de proyectos que financia el NIH, identificar qué NIH institute podría estar interesado en la idea, identificar Program Officials, encontrar colaboradores con experiencia, etc
- Contacto con el **Programme Official:** <https://grants.nih.gov/help/ic-staff-roles>.
- Revisar el **FOA**

Formularios de solicitud

RESEARCH STRATEGY

1) Significance:

- Importance of the problem
- Strengths and weaknesses
- How the proposed project will improve scientific knowledge, technical capability, and/or clinical practice.

2) Innovation:

- Challenges to current research or clinical practice paradigms.
- Novel theoretical concepts, approaches or methodologies.
- Any refinements, improvements, or new applications of theoretical concepts.

3) Approach:

- Describe the overall strategy, methodology, and analyses to be used to accomplish the specific aims of the project.
- Potential problems, alternative strategies, and benchmarks.
- Establish feasibility, and address high risk.

Formularios de solicitud

Formulario “PHS Human Subjects and Clinical Trials Information”: se utiliza para solicitudes con sujetos humanos, investigaciones clínicas y/o ensayos clínicos.

Incluye información sobre las características de la población de estudio, los planes de protección y seguimiento y una sinopsis del protocolo.

OMB Number: 0925-0001

Use of Human Specimens and/or Data

* Does any of the proposed research in the application involve human specimens and/or data? Yes No

Provide an explanation for any use of human specimens and/or data not considered to be human subjects research.

[Add Attachment](#) [Delete Attachment](#) [View Attachment](#)

Please complete the human subjects section of the Research & Related Other Project Information form prior to completing this form.

The following items are taken from the Research & Related Other Project Information form and displayed here for your reference. Any changes to these fields must be made on the Research & Related Other Project Information form and may impact the data items you are required to complete on this form.

Are Human Subjects Involved? Yes No

Is the Project Exempt from Federal regulations? Yes No

Exemption number: 1 2 3 4 5 6 7 8

If No to Human Subjects

Skip the rest of the PHS Human Subjects and Clinical Trials Information Form.

If Yes to Human Subjects

Add a record for each proposed Human Subject Study by selecting 'Add New Study' or 'Add New Delayed Onset Study' as appropriate. Delayed onset studies are those for which there is no well-defined plan for human subject involvement at the time of submission, per agency policies on Delayed Onset Studies. For delayed onset studies, you will provide the study name and a justification for omission of human subjects study information.

>> NOTICE OF AWARD

Summary Statement

These statements are PDF documents combining reviewers' written comments and the Scientific Review Officer's summary of the discussion surrounding your application during the review meeting.

To view your Summary Statement:

1. Log into eRA Commons with an SO account
2. Navigate to the Status module and select General from the Search Type dropdown
3. On the General search screen, enter criteria to find a grant application and click "Search"
4. In the Status Results, click the Application/Award ID.
5. Scroll down to the Other Relevant Documents section and click the Summary Statement link, which opens the Summary Statement PDF in a separate window.

Notice of Award

El NoA es un documento legal vinculante. Aglutina la información básica de la ayuda:

- Código
- Institución beneficiaria
- Investigador principal
- Periodo de la ayuda
- Términos y condiciones
- Program Official y Grants Management Specialist asignados

Notice of Award

To view your Notice of Award:

1. Log into eRA Commons with an SO account
2. Navigate to the Status module and select General from the Search Type dropdown
3. Enter search criteria, such as Awarded for Application Status; click Search.

4. Click on the Application/Award ID link to see the Status Information screen.

Grants Compliance & Oversight

On This Page:

- [About Grants Compliance and Oversight](#)
- [Compliance Requirements At A Glance](#)
- [NIH Compliance Activities](#)
- [Compliance Resources](#)
- [Compliance Questions?](#)

 **Report a Concern**

<https://grants.nih.gov/policy/compliance.htm>

ASPECTOS A TENER EN CUENTA A NIVEL DE INSTITUCIÓN:

- Importancia del **compromiso institucional**
- Importancia de desarrollar una **estrategia**
- La lista de aspectos de *compliance* se han de implementar al menos en todos aquellos proyectos que **reciban fondos federales**
- Cada institución ha de desarrollar sus **propias normativas de *compliance***
- Si la normativa interna sobre *compliance* es más **estricta** que la del NIH entonces aplica la institucional
- El *subawardee* tiene **casi las mismas obligaciones que el *grantee***, aunque el último responsable es el *grantee*.

IMPORTANTE:

- Tanto como prime awardee como subawardee hay que **cumplir con una serie de obligaciones (compliance)**, y estas aplican también a centros extranjeros.
- Estas obligaciones **pueden opcionalmente hacerse extensivas a otros proyectos/financiadores** (ej. FCOI, Research integrity; Rigor and reproducibility)
- **Consecuencias por no cumplir con las obligaciones (compliance):**
 - “NIH may take proactive action to protect the Federal government’s interests, including:
 - placing special conditions on awards, or
 - precluding the grantee from obtaining future awards for a specified period, or
 - may take action designed to prevent future non-compliance, such as closer monitoring.”

Policy Statement

NIH Grants Policy Statement - April 2024 [HTML*](#) [PDF](#)

Applies to all NIH grants and cooperative agreements with budget periods beginning on or after October 1, 2023.

Policy Statement

IMPORTANTE: New Policy Guidance for Foreign Subrecipients (01.01.2024)

<https://grants.nih.gov/grants/guide/notice-files/NOT-OD-23-182.html#:~:text=For%20foreign%20subrecipients%2C%20a%20provision,per%20year%2C%20in%20alignment%20with>

For foreign subrecipients, a provision requiring the foreign subrecipient to provide access to copies of all lab notebooks, all data, and all documentation that supports the research outcomes as described in the progress report, to the primary recipient with a frequency of no less than once per year, in alignment with the timing requirements for Research Performance Progress Report submission. Such access may be entirely electronic.

Policy Statement

4.2.3 Gun Control

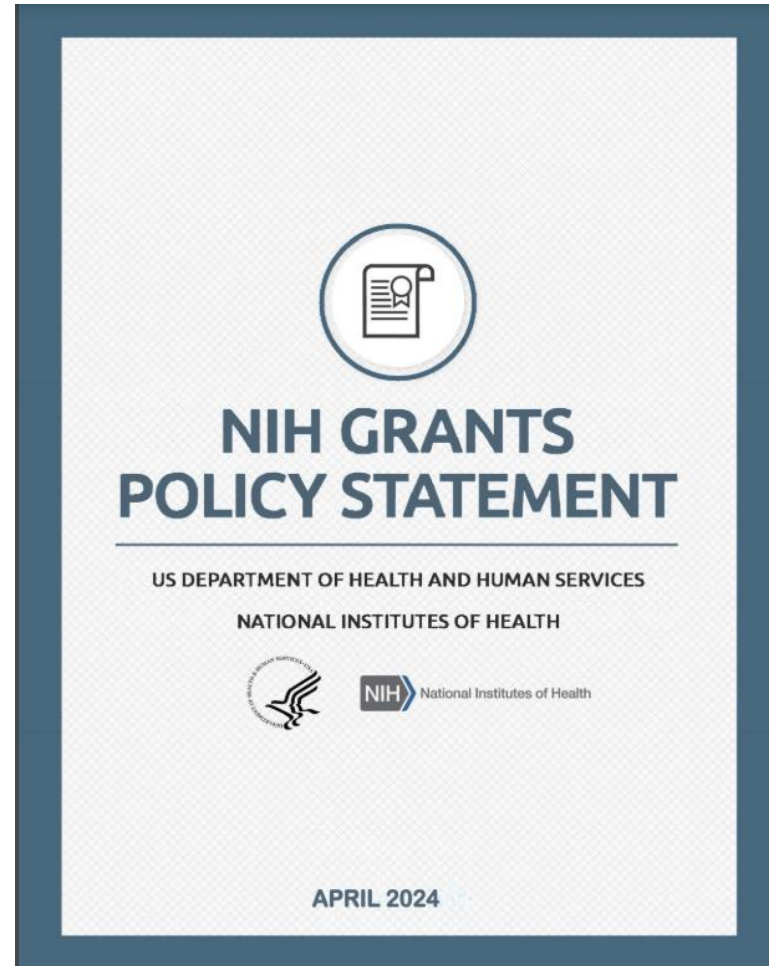

NIH funds may not be used, in whole or in part, to advocate or promote gun control.

4.2.9 Restriction on Distribution of Sterile Needles

NIH appropriated funds may not be used to carry out any program of distributing sterile needles or syringes for the hypodermic injection of any illegal drug. However, this limitation does not apply to the use of funds for elements of a program other than making such purchases if the relevant State or local health

4.1.31 Text Messaging While Driving

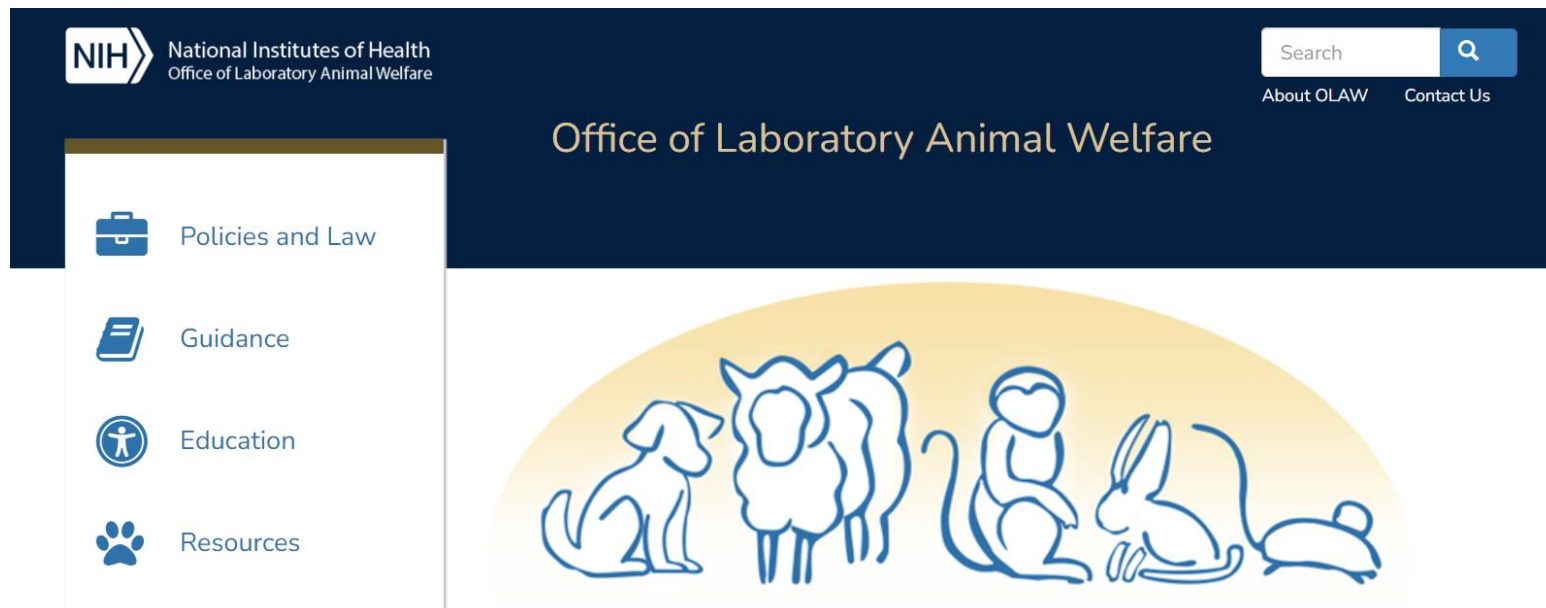

Executive Order 13513 (E.O. 13513) requires each Federal agency to encourage contractors, sub-contractors, and grant and cooperative agreement recipients and subrecipients to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or Government Owned Vehicles, or while driving Personally Owned Vehicles when on official Government business or when performing any work for or on behalf of the Government.

Financial Conflict of Interest (FCOI)

<https://grants.nih.gov/grants/policy/coi/index.htm>

Information for Foreign Grants

<https://grants.nih.gov/grants/foreign/index.htm>

There are many public policy requirements for applications from foreign organizations. When an application is submitted to NIH, the Authorized Organization Representative assures NIH that the organization will follow the applicable public policy requirements, including those for human subjects, animal welfare, and Financial Conflict of Interest (FCOI). These can be found in the NIH Grants Policy Statement (GPS) [Section 16: Grants to Foreign Organizations, International Organizations, and Domestic Grants with Foreign Components](#) and in NIH GPS [Chapter 4: Public Policy Requirements, Objectives and Other Appropriation Mandates](#).

FCOI Training

<http://grants.nih.gov/grants/policy/coi/tutorial2011/fcoi.htm>

Policy Topics – Human Subjects Research

Definición Human Subject (NIH): a living individual about whom an investigator (whether professional or student) conducting research:

- Obtains information or biospecimens through intervention or interaction with the individual, and uses, studies, or analyzes the information or biospecimens; or
- Obtains, uses, studies, analyzes, or generates identifiable private information or identifiable biospecimens.

Policy Topics – Human Subjects Research

Am I Doing Human Subjects Research?

<https://grants.nih.gov/policy/humansubjects/hs-decision.htm>

OBLIGACIONES

- An Institutional Federal-Wide Assurance (FWA) with OHRP:
<https://www.hhs.gov/ohrp/register-irbs-and-obtain-fwass/forms/fwa-instructions/index.html>
- IRB approval or determination of exemption
- Human Subjects education: [Human Research Protection Training | HHS.gov](#)

Policy Topics – Intellectual Property

Las invenciones que surjan de investigaciones financiadas con fondos federales deben informarse a la agencia gubernamental que financió el proyecto.

<https://grants.nih.gov/policy/intell-property.htm>

OBLIGACIONES

- Report each new invention to the federal funding agency **within two months of the invention being reported to the funding recipient**
- Decide whether to retain ownership of the technology and notify the agency of any decision to retain title **within two years of the date of disclosure**
- File for patent, **within one year of electing to retain title.**
- Provide a **license to the government** to also practice the subject invention
- Keep government **informed of progress** in patenting or commercializing the invention
- **Report any commercialization, licensing efforts, or other efforts** to bring the technology to practical applications (utilization)

Policy Topics – Public Access

El NIH pone a disposición del público en PubMed Central los artículos peer-review que financia. La Política de acceso público de los NIH exige que los científicos envíen a PubMed Central los manuscritos finales que surjan de fondos NIH inmediatamente después de su aceptación para su publicación.

<https://sharing.nih.gov/public-access-policy>
